Education Coordinator

**Shi Wei:** Project &  
Marketing Coordinator

**What did I learn at  
JICA Course  
in Vocational Rehabilitation  
and Employment Promotion  
for PWD 2007?**

- Government should be committed to provide financial support for NGOs
- Self-Help organisations should promote income generating employment for unemployed members
- PWD should be aware of their rights and privileges

- Vocational training should begin in school for persons with severe physical disabilities and persons with intellectual disabilities.
- Networking and collaboration between NGOs, Private Companies and Government should always be encouraged.
